Rochester School for the Deaf (Rochester)
St. Francis de Sales School for the Deaf (Bronx)
St. Joseph's School for the Deaf (Bronx)
St. Mary's School for the Deaf (Buffalo)
Hello, my name is Bernadette Kappen, and I am executive director of the New York Institute for Special Education.

As Chair of the 4201 Schools Association, representing nine private state-supported schools serving students who are deaf, blind and severely physically disabled throughout New York State, I would like to extend our appreciation for the opportunity to submit testimony regarding the 2017-18 Executive Budget as it relates to issues impacting our students.

To begin, we would like to thank the Legislature for your longstanding support of our students. Specifically, we appreciate the 2.4% increase provided in last year's budget. This increase, which resulted in a $2.3 million increase for our schools, was the second investment in our children’s education in the past six years. In addition, we are pleased that the 2017-18 Executive budget continues the past 2 years’ investments. The continuation of the increases by the Executive enables our schools to invest in our teachers and professional staff with confidence. Combined, the investment results in an increase to our base funding of $4.6 million. The state’s investment in our schools is now almost back to the 2008-09 levels, when our funding was cut in deficit reduction measures.

**Parity with School Aid Increases** - We hope that as you discuss additional investments in public education you continue to consider the students who receive their education at our schools and provide a similar increase. Our students are as deserving as their non-disabled peers attending public schools are. Similar to last year, we recommend that an increase be provided directly to the schools and be considered ongoing operational support. A direct increase also ensures that local school districts are not adversely impacted.
Short-Term & Long-Term Capital Needs - While we are extremely grateful for the state's investments in our schools, the accumulated effect of level finding has hampered our ability to maintain our facilities and grounds appropriately. Our schools were established decades ago in communities around the State with the generosity of kind and philanthropic citizens, and most of our school buildings are now older. For example, the New York School for the Deaf in White Plains is celebrating its 200th anniversary this year. Our facilities are weathered and the needs of our students are changing. Our schools are now in need of both short-term and long-term capital support:

- We recommend the investment of $5 million for the 4201 schools in support of short-term deferred maintenance. The health and safety of our students and staff is critical. An investment would allow our schools to fix roofs, replace boilers, upgrade electrical and plumbing, and modernize fire and safety equipment, etc.

- In addition, we request the opportunity to engage existing Dormitory Authority authorization for another series of long-term capital projects.

The 4201 schools are proud to be a partner with New York State in ensuring high quality educational opportunity to students with low incidence disabilities. We take our responsibility to provide each of our students with a safe and healthy environment by which to grow and succeed. We appreciate the support provided that makes our schools a reality to the students we serve across the state. Thank you.

Submitted by,

Bernadette M. Kappen, Ph.D.
Chair, 4201 Schools Association
Executive Director, New York Institute for Special Education
Background Information

For more than 200 years, the people of New York have relied on the expertise of the 4201 Schools to provide educational services to children who are deaf, blind and severely physically disabled. There are eleven “4201” schools located throughout the state, both upstate and downstate.

A Board of Directors governs each of our schools, which receive financial support for operating expenses from the State and depend on private donations for program enhancements and innovations. The 4201 Schools have established a long tradition of excellence in education and in providing innovative educational services to our students and their families.

The 4201 School Association’s members and their locations are as follows:

- Cleary School for the Deaf - Nesconset
- Henry Viscardi School - Albertson
- Lexington School for the Deaf - Queens
- New York Institute for Special Education - Bronx
- New York School for the Deaf - White Plains
- Rochester School for the Deaf - Rochester
- St. Francis de Sales School for the Deaf - Brooklyn
- St. Joseph’s School for the Deaf - Bronx
- St. Mary’s School for the Deaf - Buffalo

Under Section 4201 of the Education Law, the State has designated and authorized certain private schools to serve the special education needs of deaf, blind or physically disabled students. Students come to 4201 Schools upon application by their parents or school districts, and with the approval of the State Education Commissioner. Several 4201 Schools maintain residential programs funded through a separate lump sum budget appropriation.

Only students who are profoundly deaf, legally blind, severely physically disabled, or severely emotionally disabled are referred to the 4201 Schools by local school districts, parents, physicians, clinics and other interested parties. An intake evaluation by the 4201 School is completed, and placement is conducted upon the approval of the student’s home school district and the Commissioner of Education. Approval is based on the availability of an appropriate education program. There are no charges or fees to parents for educational costs, transportation, room or board.

Our students benefit from the academic programs, vocational programs, life skills programs and other specially designed programs at the 4201 Schools. They also take part in the interscholastic sports and other extra-curricular and co-curricular activities at their school. Our schools also work with children with multiple disabilities, for whom the schools are educational/therapeutic environments that foster growth and development in all areas - academic, sensory, and physically. Some of our students with multiple disabilities may always need certain supports to achieve an interdependent adult life, but for whom academic and personal success is attainable and an important part of our schools’ mission.
Some students live on campus for five days a week at several of the 4201 Schools. These students are those who need a 24-hour structured environment as noted in their Individualized Education Plan (IEP), or whose homes are too far to commute to school each day. There are comprehensive learning and recreational programs for students residing in school dormitories.

The 4201 Schools provide quality education services to children with low incidence disabilities. Our schools are working constantly to support the academic progress and success of the students we serve.
